

the principles set forth in this Executive Order.

Pursuant to the terms of this Executive Order, EPA has determined that this rule is not "significant" and is therefore not subject to OMB review.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-354, 94 Stat. 1164, 5 U.S.C. 601-612), the Administrator has determined that regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have a significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the **Federal Register** of May 4, 1981 (46 FR 24950).

[FRL-5286-3]

Georgia: Final Authorization of State Hazardous Waste Management Program Revisions

AGENCY: Environmental Protection Agency.

ACTION: Immediate Final Rule.

SUMMARY: Georgia has applied for final authorization of revisions to its hazardous waste program under the Resource Conservation and Recovery Act (RCRA). Georgia's revisions consist of the provisions contained in the rules

promulgated for the Burning of Hazardous Waste in Boilers and Industrial Furnaces. These requirements are listed in Section B of this notice. The Environmental Protection Agency (EPA) has reviewed Georgia's application and has made a decision, subject to public review and comment, that Georgia's hazardous waste program revision satisfies all of the requirements necessary to qualify for final authorization. Thus, EPA intends to approve Georgia's hazardous waste program revisions. Georgia's application for program revisions is available for public review and comment.

DATES: Final authorization for Georgia shall be effective October 30, 1995 unless EPA publishes a prior **Federal Register** action withdrawing this immediate final rule. All comments on Georgia's program revision application must be received by the close of business September 29, 1995.

ADDRESSES: Copies of Georgia's program revision application are available during regular office hours of 9 a.m. to 5 p.m., Monday through Friday, at the following addresses for inspection and copying: Georgia Department of Natural Resources, Environmental Protection Division, Floyd Towers East, Room 1154, 205 Butler St., SE, Atlanta, Georgia 30334; U.S. EPA Region 4, Library, 345 Courtland Street, NE, Atlanta, Georgia 30365; (404) 347-4216, vmx 6050. Or you may contact the State Coordinator at (404) 347-2234, vmx 2004.

FOR FURTHER INFORMATION CONTACT: Al Hanke, Chief, State Programs Section, Waste Programs Branch, Waste Management Division, U.S. Environmental Protection Agency, 345 Courtland Street, NE, Atlanta, Georgia 30365; (404) 347-2234 vmx 2018.

SUPPLEMENTARY INFORMATION:

A. Background

States with final authorization under Section 3006(b) of the Resource Conservation and Recovery Act ("RCRA" or "the Act"), 42 U.S.C. 6929(b), have a continuing obligation to maintain a hazardous waste program that is equivalent to, consistent with, and no less stringent than the Federal hazardous waste program. In addition, as an interim measure, the Hazardous and Solid Waste Amendments of 1984 (Public Law 98-616, November 8, 1984, hereinafter ("HSWA")) allows States to revise their programs to become substantially equivalent instead of equivalent to RCRA requirements promulgated under HSWA authority. States exercising the latter option receive "interim authorization" for the

HSWA requirements under Section 3006(g) of RCRA, 42 U.S.C. 6926(g), and later apply for final authorization for HSWA requirements.

Revisions to State hazardous waste programs are necessary when Federal or State statutory or regulatory authority is modified or when certain other changes occur. Most commonly, State program revisions are necessitated by changes to EPA's regulations in 40 CFR Parts 124, 260 through 266, 268, 270, and 279.

B. Georgia

Georgia initially received final authorization for its base RCRA program effective on August 21, 1984. Georgia has received authorization for revisions to its program through RCRA Cluster III on July 10, 1995. Today Georgia is seeking approval of the Burning of Hazardous Waste in Boilers and Industrial Furnaces (BIF) rules which

are contained in RCRA Clusters I, II, and III in accordance with 40 CFR 271.21(b)(3).

EPA has reviewed Georgia's application, and has made an immediate final decision that Georgia's hazardous waste program revision satisfies all of the requirements necessary to qualify for final authorization. Consequently, EPA intends to grant final authorization for the additional program modifications to Georgia. The public may submit written comments on EPA's immediate final decision up until September 29, 1995. Copies of Georgia's application are available for inspection and copying at the locations indicated in the ADDRESSES section of this notice.

Approval of Georgia's program revision shall become effective in 60 days unless an adverse comment pertaining to the State's revision discussed in this notice is received by

the end of the comment period. If an adverse comment is received EPA will publish either (1) a withdrawal of the immediate final decision or (2) a notice containing a response to comments which either affirms that the immediate final decision takes effect or reverses the decision.

EPA shall administer any RCRA hazardous waste permits or portions of permits that contain conditions based upon the Federal program provisions for which the State is applying for authorization and which were issued by EPA prior to the effective date of this authorization. EPA will suspend issuance of any further permits under the provisions for which the State is being authorized on the effective date of this authorization.

Georgia is today seeking authority to administer the following Federal requirements.

Georgia is not authorized by the Federal government to operate the RCRA program on Indian Lands; this authority remains with EPA unless

provided otherwise in a future statute or regulation.

C. Decision

I conclude that Georgia's application for program revisions meets all of the

statutory and regulatory requirements established by RCRA. Accordingly, Georgia is granted final authorization to operate its hazardous waste program as revised.

Compliance With Executive Order 12866

The Office of Management and Budget has exempted this rule from the requirements of Section 6 of Executive Order 12866.

Certification Under the Regulatory Flexibility Act

Pursuant to the provisions of 5 U.S.C. 605(b), I hereby certify that this authorization will not have a significant economic impact on a substantial number of small entities. This authorization effectively suspends the applicability of certain Federal regulations in favor of Georgia's program, thereby eliminating duplicative requirements for handlers of hazardous waste in the State. It does not impose any new burdens on small entities. This rule, therefore, does not require a regulatory flexibility analysis.

SUPPLEMENTARY INFORMATION:

A. Background

States with final authorization under Section 3006(b) of the Resource Conservation and Recovery Act ("RCRA" or "the Act"), 42 U.S.C. 6926(b), have a continuing obligation to maintain a hazardous waste program that is equivalent to, consistent with, and no less stringent than the Federal hazardous waste program. In addition, as an interim measure, the Hazardous and Solid Waste Amendments of 1984 (Public Law 98-616, November 8, 1984, hereinafter "HSWA") allows States to revise their programs to become substantially equivalent instead of equivalent to RCRA requirements promulgated under HSWA authority. States exercising the latter option receive "interim authorization" for the HSWA requirements under Section 3006(g) of RCRA, 42 U.S.C. 6926(g), and later apply for final authorization for the

HSWA requirements. Revisions to State hazardous waste programs are necessary when Federal or State statutory or regulatory authority is modified or when certain other changes occur. Most commonly, State program revisions are necessitated by changes to EPA's regulations in 40 CFR Parts 260-268 and 124 and 270.

B. Mississippi

Mississippi initially received final authorization for its base RCRA program effective on June 27, 1984. Mississippi received authorization for revisions to its program on October 17, 1988, October 9, 1990, May 28, 1991, August 27, 1991, July 10, 1992, June 7, 1993, December 20, 1993, May 17, 1994, and July 31, 1995. On August 10, 1994, Mississippi submitted a program revision application for additional program approvals. Today, Mississippi is seeking approval of its program revisions in accordance with 40 CFR 271.21(b)(3).

EPA has reviewed Mississippi's application and has made an immediate final decision that Mississippi's hazardous waste program revisions satisfy all of the requirements necessary to qualify for final authorization. Consequently, EPA intends to grant final authorization for the additional program modifications to Mississippi. The public may submit written comments on EPA's immediate final decision up until September 29, 1995.

Copies of Mississippi's application for these program revisions are available for inspection and copying at the locations indicated in the **ADDRESSES** section of this notice. Approval of Mississippi's program revisions shall become effective October 30, 1995, unless an adverse comment pertaining to the State's revisions discussed in this notice is received by the end of the comment period.

If an adverse comment is received EPA will publish either (1) a withdrawal of the immediate final decision or (2) a notice containing a response to comments which either affirms that the immediate final decision takes effect or reverses the decision.

EPA shall administer any RCRA hazardous waste permits, or portions of permits that contain conditions based upon the Federal program provisions for which the State is applying for authorization and which were issued by EPA prior to the effective date of this authorization. EPA will suspend issuance of any further permits under the provisions for which the State is being authorized on the effective date of this authorization.
